--------------------------------------	--	--	---

I authorise Synotronics Pty Ltd and their partners to perform a LabCheck service of the equipment listed in the table above. I also understand that although every care is taken by the staff at Synotronics Pty Ltd, their LabCheck partners and their chosen shipping company; Synotronics Pty Ltd will not be held liable if damage occurs to the equipment (listed above) whilst in the possession of Synotronics Pty Ltd or their contractors. I understand that when the LabCheck service takes place, there is always a possibility the technician could find a fault with the device and as a result the LabCheck of the equipment cannot be finalised as is. If this is the case Synotronics Pty Ltd will make contact as soon as possible to describe the problem and Synotronics Pty Ltd would still need to charge for the costs incurred so far. If the technician can repair the equipment a quote will also be given at this point detailing these potential costs. The repairs would be optional but LabCheck would not be completed without authorisation of the repairs first.
