

#### Multifunctional Bench Scale for Standard Industrial Applications

The OHAUS next generation Defender 5000 Series multifunctional bench scale is ideal for a multitude of applications, including production, packaging, inventory and shipping. Built durably and equipped with advanced features such as maximum configurability print output, GMP/GLP data output, library/ user management, and multiple connectivity options - the Defender 5000 is designed to simplify demanding industrial and commercial applications.

#### **Standard Features:**

Indicator Guides The User with On-Screen Prompts

See results clearly on the large backlit display. The alpha-numeric keypad and function keys allow for a simplified user experience. On-screen prompts and soft keys will guide you through the operation.

- Durably Constructed To Withstand Harsh Industrial Environments Durably constructed with a stainless steel platform, sand gray powder-coated steel frame and aluminum load cell, the Defender meets OIML/EC type approvals.
- Multiple Application Modes and High Storage Capacity for Greater Flexibility Features common industrial modes and supports a 50,000 item library and 1,000 user profiles which can be downloaded/uploaded for easy set-up (with SD Card.) Also equipped with GLP/GMP output capability with time/date for result traceability. Alibi memory available.
- Multiple Connectivity Options for Convenient Data Transfer and Storage Results can be stored in the Micro SD card. Data output via built-in RS232 or optional interfaces including second RS232/RS485/USB device, USB Host, Ethernet, Bluetooth/WiFi, Analog Output or Discrete I/O with relays.

# Ingeniously Practical

# **Defender<sup>®</sup> 5000** Standard Bench Scales

### **Simplified Use**

Results can be read easily on the Defender 5000's large transflective dot matrix display, even in bright sunlight. The SmarText 3.0 interface will guide you through all of the Defender 5000's unique and advanced features. With five soft keys, SmartText 3.0 makes an advanced scale very simple to use, and reduces training time for operators.

### **Durable Construction**

With OIML/EC-type approvals, the Defender 5000 can be used for both general and legal-for-trade applications. For standard industrial applications, the Defender 5000 bench scales offer durable performance at a practical price.

## **Simple Operation**

Featuring most common applications including Percent Weighing, Parts Counting with APW optimization, Checkweighing or Checkcounting, Filling, and Dynamic Weighing or Display Hold, the Defender 5000 meets the weighing and measurement needs of practically every industrial application or manufacturing process. Many application modes eliminate the need for long and complicated manual calculations. GMP/GLP with time/date allows for traceability of results.

Equipped with Micro SD card, the Defender 5000 can support storage of up to 50,000 items and 1,000 user profiles. Weighing results can also be stored in Alibi or regular format, addressing all your data storage needs.

## Multiple Connectivity Options

Weighing results can be easily exported through the standard RS232 port. Additional connectivity options include a second RS232, RS485 or USB device; USB Host, Ethernet, and WiFi/Bluetooth.

Using the Analog option (either 4-20mA or 0-10V) or the two In/four Out Discrete I/O, the new Defender 5000 indicator can also be used for systems including PLCs.

#### Indicator Specifications

	TD52P	TD52XW			
Construction	ABS plastic	304 stainless steel with sand blasting surface treatment			
Protection	N/A	IP68			
Weighing Units	kg, g, lb, oz, lb:oz, metric tonnes, short ton, custom unit				
Application Modes	Weighing, Percent Weighing, Piece Counting with Optimized APW, Checkweighing/Checkcounting, Filling, Dynamic Weighing/Display Hold				
Display	Dot matrix LCD with white LED backlight, 256 x 80 pixels				
Keyboard	6 function, 5 quick, 12 alpha numeric membrane switches				
Auto-zero Tracking	Off, 0.5 d, 1 d or 3 d				
Zeroing Range	2% or 100% of capacity				
Interface	Standard RS232, Optional Ethernet, WiFi/Bluetooth, RS232/RS485/USB, USB Host, Analog output, 2 In/4 Out digital I/O				
Power	100-240 VAC / 50/60 Hz Universal Power Supply, Rechargeable Lithium battery (Optional)				
Battery Life	20 hours continuous use				
Calibration	Zero, Span or 3 point-Linear				

#### Front Mount Bench Scale Specifications

Model	D52P6RQDR5	D52P15RQDR5	D52P15RTDR5	D52P30RTDR5	D52P60RTDR5	D52P15RQDL5
Capacity × Readability	3/6 kg × 0.2/0.5 g	6/15 kg × 0.5/1 g		15/30 kg × 1/2 g	30/60 4	kg × 2/5 g
Min APW (g)	0.01	0.025		0.05	0.1	0.025
Internal Counting Resolution	1:600000					
Linearity/Repeatability	±2d					
Indicator	TD52P ABS Indicator					
Mount	Stainless steel front-mount bracket with handle					
Base Construction	Stainless steel removable weighing platform, powder-coated steel base construction, aluminum loadcell silicon sealed against moisture					d against moisture
Base Dimensions	305 × 3	05 mm		305 × 355 mm		
Safe Overload Capacity	150% of maximum capacity					
Stabilization Time	Within 1 second					
Operating Temperature Range	-10°C to 40°C					
Scale Dimensions (B x A x C x D x E x F)	305 × 305 × 95 × 60 × 118 × 588 mm		305 × 355 × 110 × 70 × 118 × 677 mm			$\begin{array}{c} 400 \times 400 \times 110 \times 70 \\ \times 118 \times 677 \text{ mm} \end{array}$
Shipping Dimensions (L x W x H)	480 x 445 x 363 mm 800 × 600 × 235					800 × 600 × 235 mm

# **Defender<sup>®</sup> 5000** Standard Bench Scales

#### **Application Modes**

**Weighing:** Determine the weight of items in the selected unit of measure.

weight as the overall weight increases.

**Parts Counting:** Count samples of uniform weight. Advanced auto-optimization software recalculates the average piece of

**Checkweighing/Counting:** Compare the weight/count of a sample against target limits. Connect with Discrete I/O and Light Tower Kit for external check lights.

#### **Other Standard Features and Equipment**

**Percent Weighing:** Measure the weight of a sample displayed as a percentage of a pre-established reference weight.

**Dynamic Weighing and Display Hold:** Weigh an unstable load. Scale takes an average of weights over a period of time. The Display Hold feature manually and automatically holds the last stable weight on the display.

**Filling:** Fill a container to a target weight. Progress bar displays filling status. Connect with Discrete I/O option kit for auto-filling system.

User-configurable resolution up to dual range 15,000d/3,000e, 150% overload capacity protection, checkweighing symbols with selectable operation and audible signal settings, menu lock switch, multiple selectable operating languages, selectable environmental and auto-print settings, stability indicator, overload/underload indicators, selectable adjust contrast settings, auto-dim display, auto-off, auto tare, ABS plastic, 100-240 VAC 50/60 Hz internal universal power supply - Lithium Ion rechargeable battery with 20 hour standard continuous use (optional), non-slip adjustable rubber feet, a Wheel Kit option is also available for scales up to 300 kg.

#### **Additional Features**

A total of six print templates are available to ensure you can print out all of the data you need. A simple template is predefined for quick printing, as well as five templates you can customize so you can print the exact information necessary for your application - eliminating confusion and time to sift through excess unnecessary data.

#### Compliance

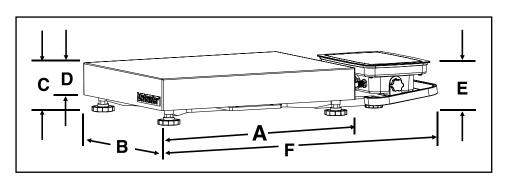

• Metrology: OIML R76 (Indicators: Certificate R76/2006-A-NL1-18.13; Load Cells: Certificates R60/2000-NL1-12-41, R60/2000-NL1-12-42, R60/2000-NL1-12-43, R60/2000-NL1-14.24)

- Product Safety: IEC/EN 61010-1; CAN/CSA C22.2 61010-1; UL61010-1
- Electromagnetic Compatibility: IEC/EN 61326-1 Class B, basic environments; FCC Part 15 Class B; Canada ICES-003 Class B
- Compliance Marks: CE; CSA; RCM
