## 1 Product Description

*NSRT\_mk4* is the 4th generation of Convergence Instrument's smart integrating sound-level meter/datalogger. It includes a type 1 digital MEMS microphone, an accurate date/time clock, a non-volatile 128 Mb recording memory with fast USB download.

Running on battery, it can record sound pressure levels for a week. Connected to an external USB charger it can record and report for months. Its very small size allows it to be attached to or embedded within the monitored equipment.

The *NSRT\_mk4* includes the following features:

- Type I precision
- A, C and Z weighting curves.
- *Integrating* Sound-Level Meter, records L-peak, L-max, L-min and Leq levels.
- Log interval adjustable from 125 ms (8 points per second) up to hours.
- Individual Manufacturer's Certificate of Calibration from Convergence Instrument provided with every instrument purchased.
- Digital very sensitive MEMS microphone (30 dBA typical noise floor)
- Completely sealed weatherproof enclosure designed for outdoors applications. Now includes an ePTFE membrane that seals the microphone against dust and water.
- All-digital design.
- Ultra-stable sensitivity (field recalibration is easily done, but seldom required)
- Very low sensitivity variation due to temperature changes
- Very low sensitivity to vibrations
- Software function calculates global Leq and/or dose, according to ISO and OSHA methods.
- Adjustable response time.
- Software functions to calculate percentiles, as well as complex metrics, such as CNEL, LDEN, Lday... etc.
- Preprogrammed recording start date/time.
- Integrated oscilloscope function that can show the acoustic signal in real time.
- Integrated spectral analyzer function that can show the spectrum (or 3<sup>rd</sup>-octave bands) in real time.
- Can be used as a high-quality USB digital microphone. USB Audio interface is included.
- Allows the observation of recorded levels while the recording is ongoing.
- Works standalone, or USB connected.
- Long life internal rechargeable battery that recharges from USB and most USB chargers.
- Can be field-calibrated.
- Observes and records 100% of the acoustic signal (no missed samples).
- Editable individual custom ID for easier instrument management.
- All settings are stored in non-volatile memory. So the instrument will regain full functionality from hard-reset or battery loss.

## 2 Applications

- Sound level and acoustic dose measurement and recording.
- Monitoring of safe working conditions.
- Activity detection and logging.
- Long-term measurement and recording of acoustic levels for environmental impact studies.
- Specially designed for long-term outdoors applications.

### 3 Specifications

Category	Specification
Bandwidth	<ul style="list-style-type: none"> <li>• 20 Hz to 20 kHz</li> </ul>
Microphone Sensor	<ul style="list-style-type: none"> <li>• Digital MEMS</li> </ul>
Precision Class	<ul style="list-style-type: none"> <li>• Type I</li> </ul>
Saturation Level (typical @ 1 kHz)	<ul style="list-style-type: none"> <li>• 120 dB-A</li> <li>• 120 dB-C</li> <li>• 120 dB-Z</li> </ul>
Temperature Error	<ul style="list-style-type: none"> <li>• Better than 0.6 dB (-20 degC &lt; T &lt; 60 degC)</li> </ul>
Sensitivity to Vibrations	<ul style="list-style-type: none"> <li>• 60 dB<sub>SPL</sub>/g (20 dB lower than typical measurement microphone)</li> </ul>
Weighting Curve	<ul style="list-style-type: none"> <li>• dB-A</li> <li>• dB-C</li> <li>• dB-Z</li> </ul>
Noise-Floor (Typical)	<ul style="list-style-type: none"> <li>• 30 dB-A</li> <li>• 46 dB-C</li> <li>• 52 dB-Z</li> </ul>
Recording Resolution	<ul style="list-style-type: none"> <li>• 0.1 dB</li> </ul>
Duty Rate of Signal Capture	<ul style="list-style-type: none"> <li>• 100% - No Missed Samples</li> </ul>
Min Log Interval	<ul style="list-style-type: none"> <li>• 125 ms (8 points of L<sub>peak</sub>, L<sub>min</sub>, L<sub>max</sub> and LEQ per second)</li> </ul>
Real-Time Spectral Display	<ul style="list-style-type: none"> <li>• 2048-point Power Spectrum – dB or Lin Scale.</li> </ul>
Calibration	<ul style="list-style-type: none"> <li>• Field-calibrated using a 94 dB 1/2" calibrator</li> </ul>
Connectivity	<ul style="list-style-type: none"> <li>• USB</li> </ul>
Battery Type	<ul style="list-style-type: none"> <li>• Integral Li-Poly - USB-Rechargeable</li> </ul>
Recharge Time	<ul style="list-style-type: none"> <li>• 2 H 30 (Typical)</li> </ul>
Battery Autonomy (Full-Charge)	<ul style="list-style-type: none"> <li>• 7 days while recording</li> </ul>
Battery Life	<ul style="list-style-type: none"> <li>• &gt; 300 Charge/Discharge Cycles</li> </ul>
Temperature Range	<ul style="list-style-type: none"> <li>• -20 degC to 60 degC (-4 degF to 140 degF)</li> </ul>
Recording Memory	<ul style="list-style-type: none"> <li>• Non-Volatile Flash Memory</li> </ul>
Recording Memory Capacity (RT128 Model)	<ul style="list-style-type: none"> <li>• 128 Mb</li> </ul>

Recording/Erasure Cycles	<ul style="list-style-type: none"> <li>Ex: can continuously record Lmax, Lmin and Leq levels at 1s intervals for 32 days, or 10s intervals for 320 days.</li> </ul>
Data Retention	<ul style="list-style-type: none"> <li>Greater than 100 000</li> </ul>
Dimensions	<ul style="list-style-type: none"> <li>Greater than 20 Years</li> </ul>
Weight	<ul style="list-style-type: none"> <li>19 mm x 42 mm x 160 mm</li> <li>(0.75" x 1.65" x 6.25")</li> </ul>
Construction	<ul style="list-style-type: none"> <li>100 g</li> </ul>
Microphone Dust Protection	<ul style="list-style-type: none"> <li>Weather-Proof Enclosure</li> <li>Expanded polytetrafluoroethylene (ePTFE) dust and water barrier</li> </ul>

Table 1

### 3.1 Frequency Response

[Figure 1](#) shows the typical spectral error in dB-A, dB-C and dB-Z, at 32 kHz and 48 kHz sampling rate, together with the type I limit lines.

Figure 1

### 3.2 Directivity

[Figure 2](#) shows the directivity of the instrument as a function of frequency.

#### **4 Instrument Manager Application Specifications**

Category	Specification
Compatibility	<ul style="list-style-type: none"> <li>Windows 7, Windows 8, Windows 10</li> </ul>
Supported Instruments	<ul style="list-style-type: none"> <li>All in Sentry series</li> </ul>
Configuration	<ul style="list-style-type: none"> <li>Full Instrument Configuration</li> <li>Save and Recall Configuration Files</li> </ul>
Display	<ul style="list-style-type: none"> <li>Real-Time Acoustic Signal</li> <li>Real-Time Sound Level</li> </ul>

<b>Record Management</b>	<ul style="list-style-type: none"> <li>• Real-Time Spectrum</li> <li>• Recorded Sound Levels</li> <li>• Global Leq/Dose Calculation (ISO and OSHA methods)</li> <li>• Battery Level and Charge</li> <li>• All graphs can be viewed in dB or Lin scale</li> </ul>
	<ul style="list-style-type: none"> <li>• Record Manual Start/Stop</li> <li>• Record Programmed Start/Stop</li> <li>• Recording Memory Download (Even while recording)</li> <li>• Recording Memory Clear</li> <li>• Auto-Calculation of Memory Depth</li> </ul>
<b>Data Export</b>	<ul style="list-style-type: none"> <li>• Export to Tab-Delimited Format for Use with Spreadsheet Applications</li> </ul>

**Table 2**

## **5 Other Applications**

<b>Application</b>	<b>Description</b>
<b>Noise Sentry RT Community Noise Metrics</b>	Application to calculate various noise metrics, such as CNEL, LDEN, and many others.
