

TESTBOY TV 335

Digital LED-luxmeter

The Testboy TV 335 is a digital luxmeter in a practical and robust plastic housing with a large measurement range of up to 400.000 Lux. Due to photo diodes sensitive to artificial light and adjustable colour temperature, it is also suitable to determine the light strength of LED lighting etc. The large LC display ensures quick and reliable reading of the measurement result.

How you benefit:

- | Photo diodes sensitive to artificial light (e.g. LED lighting)
- | Adjustable colour temperature
- | Data-Hold function
- | Sensor protection cover
